> ARTHUR J. G. PINDER, Private Beerstary.

The Daily Standard. Tuesday, May 20, 1873. The Traffic in Intexicating Liquors. One of the great problems of the day, and probably the most difficult of a satisfactory evils it carries in its train." solution, is that relating to the traffic in intexicating liquors as a common beverage. It is a question upon which political economists are greatly divided in opinion, and moral reformers are not all of one mind. To regulate the traffic in such a way as to realize therefrom a maximum of revenue at a minimum of loss to the country resulting from drunkenness, has given rise to more experimental legislation than almost any other subject which has racked the brains of statesmen slike in England, America, and the older Provinces of our own Dominion, during the past quarter of a century at least. Despite and 4 P. M. each day. JAMES D. ROBINSON, all efforts to the contrary, in the countries named, the consumption of ardent spirits has increased at a most astounding rate, and by those who oppose the traffic it is alleged that the increase of crime has been in an equal ratio to the increase in the use of strong drink as a beverage. In England, when Mr. Lowe presented his last financial statement to the House of Commons, he made special mention of the fact that the people of Great Britain had drank themselves clear of the debt of twenty-five millions of dellars awarded to the United States as compensaof the Alabama and other Confederate cruis ers, as the revenue derived from intoxiliquors during the past year had exceeded that of the previous year by that amount. And what seems strange in this connection is the fact that never were the advocates of total abstinence more powerful in numbers and influence in the old country than they are at the present moment, nor more earnest or indefatigable in their efforts to stem the tidal wave of intemperance. In the United States various schemes have been tried to regulate the traffic, but only one is said to have proved in the least degree effectual. That one is the total prohibition of the traffic, except for medicinal purposes. That extreme method of overcoming drunkenness, and enforcing the principles of total abstinence by Act of Parliament, has been tried only to a very limited extent among our American cousins, but if official reports bearing upon the subject, where the experi-ment has been fairly tried, are to be relied on, the results have been fully equal to e most sanguine expectation of those who made it. In our own Dominion there is a powerful party seeking the enactment of a prohibitory liquor law. The House of Com-mons has been completely inundated this session with petitions praying for the adoption of such a law, and among its advocates are the foremost men on both sides of the House. It is not likely a prohibitory measure will be passed this session, but a committee, we believe, has been appointed for the purpose of eliciting intormation bearing on the subject, and that committee will doubtless make their report next session, and upon the nature of that report will the House most likely be guided as to the action they will take on this vitally important question. It is not at all improbable that f the House of Commons takes this subject in hand mext session, and passes a prohibitory liquor law, they will extend the operations of that law throughout all the advert to the subject, so that our readers may in a measure be prepared for what is coming. It the traffic in intoxicating beverages has been such an unmixed evil in the older Provinces as to render legislation ne-office. cessary in order to put a stop to it, it seems but a logical sequence that the ægis of the law should be thrown over the younger memthose baneful effects which the traffic has produced in the older Provinces. In proportion to our population, we venture to complete the due completion of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the work to the amount of control to the description of the description of the description of the description of the work to the amount of control to the description of the de tion to our population, we venture to say there is more liquor consumed annually than in any other Province of the Dominion, and yet we do not think that drunkeoness is any-thing like so prevalent in British Columbia as in Ontario. The reason why it is so may be in the fact that the liquors consumed here are of a very much better quality than are consumed there. If British Columbians have any serious objections to enforced abstinence from the use of intoxicating liquors as a beverage, they should consider in what way powerful effort will be put forth next year to legislate away the daily use of beer, and lay a legal embargo upon brandy cocktails.
On Saturday last we gave a synopsis of a speech delivered in the Senate, by the Hon.
Mr. Vidal, on this subject, and the following is an extract from a speech on the same subject, delivered in the Commons by Mr. Ross, the member for West Middlesex, who said:

The services of the measure content. "In the advocacy of the measure contem-plated by the mover of the resolution, they were not advocating any new principle, for the same principle had been already embodied in many of the statutes of the Dominion. He need not refer to the course the different provinces of the Dominion had taken. With the exception of the two last admitted to the Confederation, the principle of prohibition has already been conceded. He pointed to the report of the committee on this subject, in the old parliament of Canada, where it was stated that three-fourths of the crimes of Ontario, for the three months previous to the period of the investigation, were directly traceable to intemperance. These facts, he asserted, were as true at the present day as then, and we had every year been accumu-lating evidence of the reliability of data from which they had been obtained, as for instance in the past year, 1872, when we find that two thirds of the inmates of the gaols came to that pass from this cause. During the same year in the Province of Quebec, 4,000 had been punished for the crime of drunkenness. In 1859, in the same Province, out of 6,000 prisoners in charge for different crimes, 3,527 were drunkards; and in 1869 the proportion was still greater. These facts alone were sufficient to show that there was a pecessity for something being done, and he hoped that the proposed committee would be able to furnish the House with some plan which it could see fit to adopt for the settle-ment of the question. He did not think that the public mind of this country was yet pre-

to do so. Something might be done in pros-

House might think fit to take upon the ques-

VICTORIA WATER WORKS.

UNDER AUTHORITY OF THE CORporation of Victoria Water Works Act, 1873, and the Municipal By-Law authorizing the construction of Water Works for the City of Victoria, 1873,

Applications will be received at the office of the under signed until the 21ts day of July, for the second issue of Water Works Debentures, and should application be made for more in amount than the issue authorized by the Act, they will be distributed pro rata.

The Debentures will be issued at par, as follows, viz.: \$10,000......On 15th MAY, 1873; 15,000On 1st AUGUST, 1873:On 1st APRIL, 1874; Payable in twenty-five years from date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time, the said Bebentures for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased, shall be decided by ball of, of which one month's notice shall be given, by publication in the Government Gazette, or in one or more of the local newspapers. The Bebentures will bear interest at the rate of seven per cent. per annum, payable half yearly, and coupons will be attached to each Debenture for said interest, which shall be paid on presentation as they become due. pared to accept a prohibitory law, but it would be the duty of this committee to furnish such information as would allow them

The security offered for repayment of Debentures is a follows, viz.:—

A preferential lieu will be given on all works to be erected; also upon the land and other property acquired for Water Works purposes, and on the revenue, amounting to about \$50,000 per annum, which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1889, and the Foad Amendment Ordinance, 1870. Ample security is thus given to those wishing to invest in Debentures. pective to enable those who wedla be likely to suffer, to be prepared for what action the

and nothing else. It was their duty to superintend and bring about such legislation as would be for the best interests of the people. It was not for the Financial Minister merely to consider alone how he shall best increase the income of the Government, but he must also take hee i as to how the people were affected thereby. In raising a revenue from intoxicating liquors, the Government were perpetuating an act which was injurious to the community, and inflicted a greater evil

Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the Works to be construct-ed; the proposed Works consi-t in bringing water from Elk and Beaver Lakes into the City of Victoria, a disdired from a flourishing treasury. This was ce of between five and six miles, and present receiving difficulties in carrying out the undertaki be more than compensated in the benefit con-ferred upon the country by the diminution of ferred upon the country by the desinution of the evils arising from this traffic, while an

Further Examination of Witnesses in the Bast Coast Shooting Affair.

[Betore A. F. Pemberton, Esq., S. M.] Harry, A siwash doctor, gave the followlowing evidence, -Ex-officer McMillan sworn. acting as interpreter: I am an Indian doctor; I went to see a wounded siwash at Matalowa Bay-his name was Waliapoutt; his neck was greatly swollen with blood; I took two balls from under the right ear and near the jaw, they had both entered from the left side of the head grazing the left shoulder as they will take the road very ner to Mukeltee, on estered the neck; the wife of the wounded man has kept the builets; I sucked the bal s out with my mouth, and did not use a knife kleechman. When I left, the man was not dead, but was much swollen under the jaws, he could not then drink.

To Mr, McCreight-One of the balls was flat and one was long. I think the latter was the heavier of the two; they went "right through " the neck, they struck the shoulder first, and glancing off went through ; they struck the shoulder within half an inch of

To Mr. Robertson -I saw blood on the man's shoulder, and I think it was caused by the bullets; I did not see the shirt. I only saw one wounded man, he was not dead when I left for Victoria; if he is a strong man, be may recover, but if he has not a " skookum tum-tum," be will perhaps die. To Mr. McCreight-The balls entered the

neck half an iuch apart. It is about two weeks since I extracted the balls, dian, deposed-I knew Wallapoutt; I last saw him in Victoria on Store street, in a tent DEBATE ON OUR TELEGRAPH AND INLAND MAIL net far from a fisherman's house ; I saw him In Victoria about three weeks before Mr. Sullivan came back to town ; I think Wallapoutt was in Victoria about a week, he has been in the babit of coming here all the time, and once lived six months here; I knew the other Indian, Syacka, who is dead; he stop-ped here all last summer and winter, and left this spring; he lived in Oriental alley, and afterwards lived at a Frenchman's. Wallapoutt was a chief amongst the Clowitz, but I

do not know about Syacka. This was all the evidence taken, tending to show that the men shot had both been in the habit of living in and frequently visiting this city, and that there could be no doubt that when the canoes were overhauled, they im-mediately recognized Mr. Sullivan as the "Tyhee policeman, Victoria."

On !- Having seen an article in the Free Press, of April 23d, stating that considerable umbia, owing to a rumor that the Dominion Government intended to appoint an Ontario gentleman to the office of Inspector of Inland Revenue for that Province, a telegram was sent by the members of British Columbia to plaint on the subject of the letting out of the late Provincial Secretary, asking whether mail contracts in British Columbia, parts of such was the case, and in response they recrived the following :- "Appointment not criticised here; believe it satisfactory; no public indignation."-(Signed) A. ROCKE ROBERTSON, Chairman -Ottawa Times, May 2

ONE MORE DEPARTED THIS LIFE .- J. B. Timmerman, Esq , real estate agent and broker, a pioneer resident of British Columbia and doing business in this city, died at his residence, head of Fort street yesterday afternoon, after a short illness. He has been in failing health and strength for two or three years past. On Saturday he was taken ill; on Sunday ate a hearty dinner, and yesterday saw the last of the deceased gentleman.

SAANICH MAILS .- The settlers of Saanich roate on each and every trip, whereas it was hoped that Mr. Williams, the new contractor, would see the propriety of alternating his service by travelling one week by the West road and back by the Bast; and the following week by the East road and vice versa, in order that the settlers may receive equal accommodation.

ON THE SCENT .- The police have got scent of the murderer or marderers of Mr. Dwyer and wife, and were actively at work last evening hunting them up. Let us hope they will be successful. A detective from the Sound arrived in town yesterday, and cobringing to justice the perpetrators of one of the most terrible deeds ever enacted on this coast.

MARRIED .- Two marriages took place on board the steamer North Pacific during ber trip yesterday from Olympia, the nuptial ceremony being performed in each instance by Gee. G. Atkinson, Esq., J.P.; the happy couples thus united were Mr. George Clinton and Miss Sarab Baley; and Mr. Thomas

Hood and Miss Mary Wren. REWARD OFFERED .- Mr. Hy. Saunders, of Johnson street, has been authorized to offer a report that the British Columbia represen-\$500 reward for the arrest and conviction of the perpetrator or perpetrators of the foul murder of Mr. and Mrs. Dwyer, at San Juan

Island, which took place last week. ROADS .- The Chief Commissioner of Lands and Works has invited tenders for roads very different character, certainly not inimiknown as Departure Bay, Nanaimo and Ce- cal to the Government. dar District, and Nanaime and Comox roads. This will doubtless be duly appreciated by the settlers in the above named localities.

ESQUIMALT NAVAL YARD TENDERS .- The Acting Storekesper, H. M. Naval yard, Esquimalt, calls for tenders for the construction of two dwellings, repairs to buildings, and for rebuilding Cole Island jetty. Bids will be received until Thursday the 22nd inst.

POLICE COURT .- William Hilliard, charged of supply. with stealing goods to the value of \$100 and upwards, from the wagon of a Chinaman named Ab Sing, was again acquitted yester-day. This case occupied the Court six or seven bours.

RACE ROCKS LIGHTHOUSE .- Messrs. Kinsman & Styles have been awarded, by Captain Cooper, the contract for certain repairs to Race Rocks Lighthouse and keeper's dwel!-

AUCTION .- An auction of staple groceries will be held to-day at J. P. Davies & Co.'s

Washington Territory.

A new steamer is about to be built at Port Madison, 400 tons, for the Coose Bay Coal

The Harrison had to put back from sea to Port Townsend in a leaky condition. The vessel will have to be lightened for repair. We learn from Tenino that the work on the railroad in that region is rapidly progressing. The route is cleared to the Nisqually River and much of the grading is done. Some four miles are ready for the ties.

A fire at Tenino a few days ago spread from a coal pit, and, burning fiercely through the woods, attacked the town and threatened the sailroad track. Quite a little excitement was created in the village, and everybody enlisted in the army of home defense. besieged townspeople were also reinforced by the bringing of an engine from Kalama. The fire was heavy, continued and severe, but no especial damage had been done at last accounts.

We understand that from and after next Monday, the 19th inst., the stages will leave here (Olympia) at four o'clock, a. m., and passenges will be landed in Portland the same evening. Coming this way they will arrive here from Portland about 9 p. m .- P. S.

Col. T. B. Morris Chief Engineer of the Pacific Division of the North rn Pacific Raiload, arrived in this city with his family on Wednesday evening. He informs us that the three pieces weighing \$6. It now appears Company has let to J. B. Mourgomery, Esq., that the old Discovery Co who ran a tunnel contract for constructing one hundred the present surveyed lines. The con ract does not call for the completion of the whole or seissors; I gave the balls to the man's with the present year, but it is understood that Mr. Montgomery will push the work as rapidly as practicable, and from his well known energy we may reasonably expect that the road will be finished to the navigable waters of White or Black river, so as to make connection by fiver steamboats with e tile by the 1st of January next. This will give us again, and expect to be working below on all the practical advantages of a terminus for Monday. The Gladstone Co, have been taknot approact us any nearer. The route from start work in the face on Friday, but the the end of the first forty miles, near the Stuck shaft of their hoisting gear broke. It will river, has not yet been determined. Two lake two or three days to repair the damage. directly through to this city, and one east of expenses. The Uphir Co, have stopped Lake Washington-and reported to the direc- working on their tail race, on account of tors for their determination. Their decision high water. will be made during the present season. It is settled, however, that the road will not diverge to Tacoma - Dispatch.

Charley, alias Yacountas, a Fort Rupert In- The Votes for British Columbia. SERVICE.

In the House of Compons, May 1st, the House in committee of supply, had under consideration several items. Among those passed were \$33,000 for telegraph lines in British Columbia.

The following items, under the head of Post Office, were taken up :-British Columbia mail services : Steamboat service, \$18,000. Stage and other ordinary conveyance, \$37,000. Salaries of outside

services, \$9,000. Miscellaneous, \$2,000. Mr. Young, of Waterloo, considered the increase in the post office service as unnecessary, especially with respect to British Columbia. He thought there was a disposition n the Department to be extravagant.

Hos. Mr. Tupper thought the hon. gentleman had not made out a very strong case. The opening up of mail communication in excitement existed in Victoria, British Col- B itish Columbia and Manitona had to be considered, as well as the fact that the postage had been decreased within the last few England during the month of Jane.

Hon. Mr. Tupper asked the hon. gentleman

that he might convey them to the Postmaster General. Mr. Mackerzie would give extracts. He then asked explanations with respect to sev-

Mr. Thompson, of Cariboo, had received to complaint about the mail service in British Columbia. As regards the stage and other conveyances, he could tell hon. gentlenen that several new routes and new post

offices had been opened. Mr. Farrow believed that if the rate for obtaining money orders was reduced from a half to a quarter per cent., a great amount would be sent by money order instead of in

registered fetters. Mr. Thompson, of Cariboo, advocated the complain that the mail stage adopts the one extension of the money order system to Brit-

Hon. Mr. Tilley explained that the increase was not really as great as appeared, because the payment of salaries of postmasters, etc., in Ontario and Quebec was provided for in the estimates, whereas they were formerly paid out of the revenue. The increase of revenue wou'd consequently be equally

Mr Mills advocated the reduction of the postage on newspapers.

Hon. Mr. Tupper promised to call the at-tention of the Postmaster General to this. In regard to the subject of reducing the rate for money orders, the Postmaster General had considered the question, and telt convinced that the revenue would be greatly decreased if this were done.

Mr. Mackenzie enquired on what terms the new railways were paid for mail conveyance. Hoo. Mr. Tupper presum d the arrangements were the same. He would, however,

The items then passed. The committee rose and reported.

The Rumored Opposition of British Columbia.

OTTAWA. May 1 .- Some members of the House of Commons, with whom the wish was father to the thought, bave, been circulating tatives have signed a round robin, in which they declare that they will go over in a body to the Opposition, unless one of their number be taken into the Cabinet. The rumor is wholly without foundation. The British Columbians neither ask for nor desire such an appointment. The round robin was of a

INDIAN APPROPRIATION .- The committee of supply of the Dominion Commons passed, on April 29th, the amount set down, \$29,000, to pay Indian expenses connected with British Columbia during the current year.

CUSTOMS APPROPRIATION .- On the 29th of April, \$24,000,-amount set down on the Estimates for salaries and contingent expenses, for British Columbia, passed the committee

RAILWAY SURVEY .- The sum of \$500,000 is set down on the supplementary estimates of the Dominion Parliament, for the Pacific Railway survey, this year.

ALIENS IN BRITISH COLUMBIA BILL .- The third reading of above bill passed the Dominion Senate on the 29th ult.

LATE PAPERS .- Hibben & Co. received yesterday San Francisco papers to May 10th.

PROROGATION. - The Halifax Legislature was prorogued on the 30th ult.

SEN. CARRALL AND MR. THOMPSON, M. P. PRESENT

An adjourned meeting of the Public I rinting Committee of both Houses met at Ottawa on Thursday 20th ult. Among those present appointed to enquire into and report from were Senator Carrail of the Senate, and Mr. time to time on all matters relative to the Thompson, M. P., C r boo, of the Commons. Mountains, 2) miles south of Sorass or Dry A meeting on Wednesday adjourned on the Pacific Railway, granted to Sir Hugh Allan

Hon. Mr. Chapais stoted he was strongly dian killed in the recent engagement and in favor of allowing what was called "double brought in by the Warm Spring Indians, was composition" which he believed Mr Taylor the notorious Roston Charley. The face was justly entitled to, and cout a d dthat this was too much disfigured by dragging to render only keeping within the scope and meaning of Mr. Taylor's contract and ought to have been allowed the contractor through the whole of his engagement with the Govern-NEW YORK, May 18 .- A Herald special ment as was clearly shown by the remarks brought before him.

Mr. Young did not consider that the hon. gentleman's motion was exactly in order as the last Committee, and directly opposed to POUGHKEPSIE, N. Y., May 18 .- It is reported the resolution which the Committee had now here that a gallery of Sing Sing prison fell met to consider. He desired the Chairman to state whether the motion could be put to the Committee.

Hon. Mr. Aikins said that during the early part of Mr. Taylor's contract what was termed 'double composition" had been paid, and it was fully recognized by the Government that such a principle was intended when tenders were issued by the Government for the

Mr. Ross (Middlesex) said there was a slight difference between the scheme proposed by the Hon. Mr. Chapais and that of Mr. Bowell, but contended that the motion of the Hon. Mr. Chapais was out of order. Hon. Mr. Carrall contended that the motion

was strictly in order, and a legitimate subject or discussion. The question being again put to the Chairman, he ruled that the motion of the Hon Mr. Chapais was out of order. Mr. Wallace, Hon. Mr. Ferrier, Mr. O'Reilly,

and several other members contended that the ruling of the Chairman was incorrect. The Chairman said he did not wish to open would only be altering, in a measure, the decision of the Judges, and that of the Printing Committee of last Parliament.

The matter then dropped. Mr. Young moved in amendment to Mr. Bowell's motion, that 27 per cent increase be given to Mr. Taylor on the whole of his Parliamentary contract, as in accordance with the average increase in the price of labor all over the Dominion within the past three New York, May 14 .- In June 1872 (just years, as taken from the Queen's Printer's report. Mr. O'Reilly argued forcibly against Mr.

Young's motion, as he did not consider that a basis for true compensation. He could not hold with the hon. gentleman that an average of the increase over the Dominion should be it was to be delivered to Grinnell The in- taken as a just and proper ground, when it struction of Capt. Hall were carried out last was clearly proved that there had been a Monday. In opening the package, Grinnell much larger increase in Ottawa in the price of found that it contained three books, compris- labor and the cost of living than in any other

to Arctic regions known only to Capt. Hall. the amendment would not give to the contractor a larger sum than was proposed in the original motion. * * * * *

He warned the committee against doing that which would compel the contractor to close his business. If they did Parliament would be placed at the mercy of those who had advocated a division of the printing among the different offices, which, if carried out, would compel the country to pay double that which would be paid under his resolution if

adopted. Mr. Stephenson then rose to contradict statements put forth the day previous by Mr. Young and Mr. Ross (Middlesex), to the effect that Messrs. Hunter, Rose & Co. had never been granted an increase. He read telegrams received a few days ago from the Chairman of the Printing Committee, Toronto.

Mr. Young read a letter from the Queen's Printer, Toronto, stating that the Toronto Tuesday, May 20th, 1873. Government had not as yet paid their con tractors an increase on their rates for print-

Mr. Bowell contended that it was clear that though they might not actually have received the money yet, the principle had been established by the committee and confirmed by the Ontario Parliament, and he felt sure Mr. Young could not object to follow the 401 Chests Oolong Ponschon Tee in steps of that very economical Governmen and carry out the same rule with regard to 621 Chests finest Colong Poucheag Mr. Taylor's claim. subject of what was termed "double compo

The Hon. Dr. Carrall felt very clear on the sition," and reiterated the statements put forth by the Minister of Justice before the Printing Committee last session. In view of 10 bales Butcher's Paper, the principle which had been involved by the action of the Committee on Wednesday, he 10 bales Grocer's Paper, found that the motion for an increase on Mr. Taylor's prices could now beentertained, and sufficient with which to storm the place, and to meet the case in all its bearings and to do justice to Mr. Taylor, he moved an amend- 50 Kegs Waikapu Plantation Sugar, ment to the amendment, but which was actually Mr. Bowell's motion in point that Mr. Taylor be paid 35cts. per 1,000 ems composition; 25 ct. per token press work, and 25cts. per hour alterations. After some further disscussion on the three motions before the Committee, a call was made for yeas and

House or Commons, April 28. On motion of Hon. Mr. Anglis, an address Government of the Provinces of New Brons-

expended On motion of Mr. DeCosmos, an address night. News will probably be received from was voted to His Excellency, for a copy of the report of the special agent of the Inland Revenue Department, respecting British Co-

lambia. Also,-a farther address, for a copy of the report of the Superintendent of Indian Affairs for British Columbia for 1872-3, with any subsequent correspondence on the Indian affairs of that Province.

On the 30th April, in the Senate, Hon, Mr. Christie gave notice :- That a committee be time to time on all matters relative to the contract for the construction of the Canadian cluding all communications between Hugh Allan or any of his associates now In England and the Government, or any member thereof, or any person on their behalf,

REGISTRATION OF INLAND VESSELS: bua Hon. Mr. Mitchell moved the House into Committee of the Whole to consider the following resolution :- "That it is expedient to repeal chap. 41 of the Consolidated Statutes of the Province of Canada, respecting the registration of inland vessels, and to make provisions common to the whole. Dominion on that subject, as well as with respect to the necessity of advances on ships in course of construction."

The House went into committee, Mr. 8. Campbell in the chair. Hon. Mr. Mitchell explained that the object

of the bill was to assimilate the system of registration of vessels which prevails throughout the Dominion. At present there were two systems. In the Maritime Provisces, Quebec and British Columbia vessels were regist-red under the old registration law of Canada. The systems were different; the measurements were different, and when it was attempted to make up the amount of tonnage possessed by Canada, it was impossible to do so correctly, as a tou the one place did not represent a ten in New Brunswick. The object of the bill was, therefore, to assimilate the laws of the Dominion. Another intention of the bill, and one of considerable importance to us as a shipping people, was one which would facili-tate the obtaining of advances on shipping

hose making advances.
In answer to Mr. Mackenzie, Hon. Mr. Mitchell said that the resolution would provide that advances made on vessels the question of double composition, as it in course of construction, should be a first Mr. Kirkpatrick said chapter 42 ought also lien thereon.

roperty, and to give greater security to

Mr. Blake repeated his question as whether the clause of the Pacific Railway charter requiring the sanction of Parliament, would be submitted in the House this session Right Hon. Sir. John Macdonald replied that he was awaiting communication from he parties now in England negotiating loan for the construction of the railroad. On receiving it be would reply to the hon. gen-

Applications will be received at the office of the under-signed until the 10th day of May, for Water Works De-bentures, and should application be made for more in amount than the issue authorized by the Act; they will The Debentures will be issued at par, as follows, viz.

\$10,000 On 15th MAY, 1873; 15,000.....On lat AUGUST, 18739 75,000On 1st APRIL, 1874; ayable in twenty-five years from date thereof.

The Corporation of the City of Victoria having the right to repurchase from time to time, the said Debentures for the purpose of withdrawing the same from the market, the numbers of the Debentures so to be repurchased, shall be decided by ball ot, of which one month's notice shall be given, by publication in the Government Gazette, or in one or more of the local newspapers. The Debentures will bear interest at the rate of seven percent, per annum, payable half yearly, and coupons will be attached to each Debenture for said interest, which shall be paid on presentation as they become due. The security offered for repayment of Debentures is a

A preferential lien will be given on all works to be erected; also upon the land and other property acquired for Water Works purposes, and on the revenue, amounting to about \$50,000 per annum, which the Corporation have the power to raise under the Municipality Act, 1872, and the Municipality Act Amendment Act, 1873, the Road Ordinance, 1869, and the Foad Amendment Ordinance, 1870. Ample security is thus given to those wishing to lavest in Debentures. A deposit of Ten per cent, on the amount of Deben-tures applied for, will require to be paid into the Bank of British North America to the credit of the Water Works account, a receipt for said deposit to accompany the application, and on the Debentures being issued, they will be placed in the said Bank, and handed over to the party who presents the Water Commissioner's certificate of his being entitled to receive the said De-bentures on his naving the full equivalent is mentioned.

certificate of his being entitled to receive the said De-bentures, on his paying the full equivalent as mentioned in said certificate, and in the event of the Debentures not being fully paid for on the day of issue above men-tioned, the deposit of Ten per cent shall be forfeited to the use of the Water Commissioner for Water Works nurnoses. Mr. F. W. Green, C. E., has been appointed by the Corporation as Engineer of the Works to be construct-ed; the proposed Works consi-t in bringing water from Elk and Beaver Lakes into the City of Victoria, a distance of between five and six miles, and present no en-gineering difficulties in carrying out the undertaking. Forms of application for Debentures with Bank de posit receipt attached, as well as any further informa-tion that may be de-ired, can be had by application per sonally, or by letter addressed to the Commissioner.

PROVISIONAL DIRECTORS: J. H. TURNER, JOHN SWITZER, W. T. DRAKE, L. STAHLSCHMIDT

DRAKE & JACKSON. BANKERS : BANK OF BRITISH COLUMBIA

THE COMPANY IS FORMED FOR the purpose of acquiring the property known as Belmont Factory, situate on Esquimalt Harbor, and business carried on therein, consisting of Tanning, Root and Shae Manufacturing, and of continuing

and Boot and Shoe Manufacturing, and of continuing the same.

The purchase would include the Land, Buildings, Machinery, Plant, Stock in-Trade and goodwill of the business, all of which it is proposed shall be taken at a valuation to be made by competent disinterested persons.

The Boot and Shoe Department has for the past two years been carried on under the management of Mr. Switzer, almost exclusively by Chinese labor, at a small cost, but the recent addition of the Tannery, which was found a necessity, in order to maintain a sufficient supply of good material, has required a considerable outlay, and renders the introduction of further capital necessary for the proper development of the business.

The Factory is well arranged, and is fitted with the most approved Machinery.

The Tannery has every appliance for the saving of abor.

The Water Power which is utilized for the conduct of the saving of abor.

abor.

The Water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft in quality, and is never failing.

Springs on the Estate, is very soft in quality, and is never failing.

In fact the business is in thorough working order, and Mr. Switzer's services as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Estate, some of which is of excellent quality.

The Timber is of considerable value for Firewood, the situation being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general satisfaction, and at a profit successfully compete with the imported article.

The sales for 1872 amounted to nearly \$30,000, which, considering the short time the enterprise had been in paration, shows the favor with which the products have seen received. Custom House for the year 1871. was about \$100,000, representing a selling value, after adding duties, etc., of say \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Books and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

ing the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this Department is in its infancy—a very superior article is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of Hides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c, in addition to the requirements of the Boot Factory.

The Belmont Boot and Shoe Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success is an assurance that, as population increases, very remunerative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into Boots and Shoes, &c., (instead of as formerly being exported and the manufactured articles in turn imported, the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive institution insures will, aside from the remunerative character of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become

are in any way interested in the prosperity of the Province.

It should be remarked that this company will become at once possessed of two businesses with established connections, without any interruption to working or loss of time in transfer, and will therefore have from the first day of its possession a revenue from a business which is capable not only of immediate, but, in the future, almost unlimited extension.

Most similar undertakings of any magnitude are now worked successfully by joint stock companies, both in Great Britain and in the United States.

The transfer of the property to the Company will only be made upon terms satisfactory to the Provisional Board of Directors, based upon the valuation. The purchase will be effected to a large extent in shares retained by the present proprietor, a portion of which will not participate in any profit until a dividend of 10 per cent has first been paid to the new shareholders

Applications for shares may be made to the Secretary protem., the Eank of British Columbia, or to Messrs. Prake & Jackson.

Chance for Stock Raisers THE CELEBRATED STALLION "SIR Henry" will stand at Victoria and in the Districts.
